

BCom Quantative Mngmnt vs BSc Decision Sciences

Posted by AmeliaF - 2017/06/19 19:01

Hi

Considering the following options for next year. Would appreciate any feedback on the below qualifications.

- BCom Quantative Management
- BSc Decision Sciences Major
- Post Grad Risk Management
- Honours in Business management

Working in the insurance industry as an analyst, absolutely love numbers and not a fan of management type subjects (anything mng related, only reason I am not immediately jumping at honours :unsure:)

Looking forward to your insights.
